PROFESSIONAL SUMMARY

Hard Working and organised Full Stack Developer looking for my first role in Tech. My goal is to become a team leader of a group of driven software developers and within that position, streamline working methods to ensure deadlines/customer needs are met whilst maintaining job satisfaction as well as code quality.

SKILLS: TECH

- HTML/HTML5
- CSS/CSS3/Bootstrap Framework
- JavaScript/ jQuery
- Python
- API's
- Django Framework

SKILLS: GENERAL

- Time Management
- Attentive to detail
- Collaborative
- Quick to learn

EXPERIENCE

I am currently looking for my first role in tech, however, I have worked with Software Developers in a previous role in which we were building a data-platform for staff members to have access to project information in a central location. Also, whilst learning with the Code Institute, our learning took place replicating modern SAAS environments via Slack, GitHub/GitPod/GitHub Pages, Heroku, Bootstrap. The course I completed with the Code Institute is their Diploma in Software Development (E-Commerce Application), in which students learn Full-Stack web development and complete 5 projects throughout the year which showcase these skills. Links to these completed projects can be found in my GitHub repository within each projects README or via my Online CV linked above.

Logistics Coordinator (HS2) | Strabag | November 2020 – August 2021

- Delivery Management and attentive to detail – All deliveries to be booked in before the 14:00 deadline with correct details to reduce issues upon arrival.
- Collaborative – work with the team, site and suppliers ensuring all compliance requirements are fulfilled

Project Lead (Careys Live) | Careys Civil Engineering | Jan 2020 – November 2020

- Identify and research areas which the Carey Live system can improve the efficiency of the company
- Lead process improvement workshops/meetings
- Work with key members within the business to ensure new ideas are attainable without disrupting other departments
- Present ideas to the team for review and approval
- Write detailed specifications for the software developers
- Liaise with the software developers to ensure the system is built as per the specification
- User Acceptance Training prior to system release
- Work to deadlines and well under pressure

Project Support Coordinator (Careys Live and Site) | Careys Civil Engineering | April 2015 – January 2020

- Compile and distribute meeting agendas and meeting minutes
- Prepared thorough Carey Live System User Guides
- Updated and released the Carey Live System User Guides as and when the system was updated/released
- System User Acceptance Testing
- Timesheets and Allocation Sheets
- Good Receipting, invoice clearing and plant returns
- Environmental Reports

EDUCATION

- Code Institute – Diploma in Software Development (E-Commerce Application)
- BA Hons Performing Arts (Dance)

INTERESTS

- Dance (multiple Genres from Indian Classical to Contemporary)
- Jewellery Making
